**W**hy did Jesus HAVE to be born in Bethlehem, not Nazareth?

**W**hy did He do most of His miracles in Capernaum, not Jerusalem?

**W**hy did He occasionally leave His home office in Capernaum and go to the seashore in order to answer a specific question?

**W**hy did He hike His disciples a long way out of Israel, into Syrian territory, in order to ask His disciples who He was?

**W**hy did He spend the last three months of His life outside of Israel, in what is now known as Jordan?

**E**ach of these geographic placements point to the interaction between the Spirit of Jesus and the land. Sometimes He was giving and sometimes He was receiving from the land.

**T**his seminar at Unified... church is designed to equip you to understand what some of the land dynamics are which will enhance your spirit's ability to soar.

**W**hen you have been on toxic land or land that has not welcomed you, it builds some unhealthy neurological pathways in your brain. Even

after you leave the toxic land, the pathways remain. You can end up defaulting to undesirable emotions and actions, even when the original stimulus is no longer there.

**L**ikewise, you can partner with God's gifts to you in the land to build valuable neurological pathways that will stand you in good stead when you are on undesirable land.

**Come explore themes which apply to every single person, regardless of where you are in your walk!**

Presented by: Arthur Burk
